

Factsheet

Representative survey: Georgian speaking adult (18 and older) population, excluding populations living in territories affected by military conflict (South Ossetia/Tskhinvali region and Abkhazia)

Sample Design: Multi-stage cluster sampling with preliminary stratification

Number of completed interviews: 1,995 respondents

Survey mode: Computer-assisted personal interview (CAPI)

Interview languages: Georgian

Fieldwork Dates: May 29, 2024 – July 2, 2024

Results are weighted.

Remark: There might be slight differences (1%) in frequencies across online data on ODA and Stata and SPSS versions of the datasets, due to rounding of weight coefficients
