

Fact sheet

Caucasus Barometer is an annual survey about socio-economic issues and political attitudes conducted by the Caucasus Research Resource Centers (CRRC) in the three countries of the South Caucasus: Armenia, Azerbaijan and Georgia. The project started in 2004. Representative nationwide data is available since 2008 (before 2010, the survey was titled The Data Initiative).

Population: Adults (18 years old and over), excluding the populations living in territories affected by military conflict (Mountainous Karabakh) and Nakhichevan.

Sample Design: Multi-stage cluster sampling with preliminary stratification.

Sample Size: 1418 respondents.

Response rate: 75%.

Survey mode: Face-to-face paper-and-pencil interview (PAPI).

Interview languages: Azerbaijani

Fieldwork Dates: October 1, 2011 to November 2, 2011.

Results are weighted.
